

APRIL 27TH 9-10 PM ARCHAEOLOGY VIDEO FESTIVAL

Celebrating New York State Archaeology!

No Archaeology Season poster this year! Instead, join us for an evening of short videos and clips of documentaries featuring New York State archaeology. This year's contributions range from Buffalo to Albany to Long Island. Videographers will be there to talk about their productions and to answer your questions.

The future of the video festival will be discussed in terms of how it may evolve.

Videos:

**Cole Gravel Pit: 3D
Reconstruction (1m)**

Sierra Doerschutz
